simarmatarado@gmail.com | radosimarmata27.github.io

Over the years, I have relentlessly pursued excellence, contributing to diverse projects and acquiring a wealth of experience in crafting innovative software solutions. My commitment to staying at the forefront of technological advancements has shaped my career trajectory and positioned me as a dedicated and forward-thinking professional in the software engineering domain.

EXPERIENCE

2022 - NOW

SOFTWARE ENGINEER, PT DATA SAINS INTEKNOVA

I have been at the forefront of crafting transformative software solutions that harness the power of cutting-edge technology. My focus has been on developing robust applications that optimize operations and drive innovation across various domains.

2021 - 2022

SOFTWARE ENGINEER, PT INSOFIT ASIA

Drove technological advancements in the hospitality industry by leading key software development initiatives at PT Insoft Asia. Contributed significantly to the enhancement of guest experiences and operational efficiency through the creation of cutting-edge applications.

2020 - 2021

JUNIOR SOFTWARE ENGINEER, PT PENTA SOFTWARE INDONESIA

Elevated the digital landscape by spearheading the development of the groundbreaking MAD Kebudayaan Application. A dynamic platform dedicated to preserving Indonesia's cultural heritage. Actively engaged in the meticulous curation and collection of invaluable data on cultural landmarks nationwide.

EDUCATION

2012 - 2017

BACHELOR OF INFORMATION ENGINEERING, GUNADARMA UNIVERSITY

Geographic Information System (GIS) dedicated to mapping non-criminal incidents across Indonesia. The system was developed as a web-based application, utilizing Google Fusion as a primary technology platform.
